

eCare® Online

Nebo System's eCare® Online service improves staff productivity by offering access to seven BCBS plans, 20 Medicaid and Medicare A & B with a single password. Working in a real-time environment and at the point of registration, staff can quickly verify coverage, co-pay amounts, deductibles and more. This allows for an increase in up-front collections while reducing denials and rejections.

Additional features make this a useful tool within front and back end provider operations. Batch processing of self-pay accounts automatically determines Medicaid coverage, and address verification reduces returned mail. A handy Unique Physician Identification Number (UPIN) lookup, Blue Cross pre-cert and Local Coverage Determinations (LCD) tools add to the value of our browser-based system.

Services include:

- Eligibility
- Claims status
- Self pay batching
- UPIN lookup
- Address verification
- LCD rules
- Blue Cross pre-cert tool

Benefits include:

- Activity reports
- Service status alerts
- Efficient single point access
- Unlimited number of login IDs
- Robust list of commercial and government payers

Nebo Systems provides other solutions for:

- Claims and Billing Outsourcing
- Claims Management and Submission
- Electronic Remittance Posting
- Integrated Eligibility Verification

For additional information, contact Nebo's Help Desk at 630-916-3200.
